HS-N-R1-D2-O

Elevation

10000

Aspect Range

N, E

Latitude

45.07730

Longitude

-110.02100

Notes

On Jan 9 we saw many avalanches of various types and ages. Some occurred today and within the last 24 hours and some were up to a week old. Avalanche types ranged from 3-6' deep and broke on weak layers near the bottom of the snowpack... these were on Abundance east face and north side of Crown Butte and looked 3+ days old.
